

Brand: Ranger

Model: RP-6KC

Description: Industrial 3-Ton Can Crusher

All-in-One Heavy-Duty Hydraulic Solution

This compact-design can crusher applies 3 tons of pure, air-operated pressure to just about any paint can. Save up to 90% on your waste management costs! At only 20% of the original size, the cans are much easier to properly dispose of, so the Ranger RP-6KC Can Crusher is good for the environment AND your bank account. If you want a can crusher but don't want to give up precious workspace, consider the RP-20FCS crusher stand.

Features

- 100% air operated
- Reduces cans to 20% of their original size
- Maximum crushing pressure of 6,000 lbs.
- Crushes a can in only 20 seconds
- Compact floor or bench-mount design
- All-steel industrial construction for years of trouble-free service
- Capacity (per cycle): 2 1-gallon cans / 4 1-quart cans
- Comes with a filter / regulator and air gauge
- Powerful pneumatic cylinder
- Greatly reduces disposal costs
