

**Brand:** Ranger  
**Model:** RFJ-4000AL  
**SKU:** 5150085  
**Description:** 2-Ton Aluminum Racing Jack / Quick-Pump

### Lightweight Aluminum Racing Jack

The Ranger model RFJ-4000AL aluminum racing jack weighs in at just 39 pounds but delivers heavyweight performance; optimum strength, reduced weight, less pumping effort and increased lifting speed. This precision-built jack is constructed from high strength aluminum and features an extra low profile for lifting cars with low ground clearance or side skirts. A fast-action, dual-piston quick-pump combined with a rigid knurled aluminum handle gets cars off the ground in seconds. A low profile single front-roller with wide stance adds stability and a soft foam handle guard protects against vehicle damage.

### Features

- Two-ton capacity
- Aircraft-grade billet aluminum design
- Low-profile, single-piece front roller
- Oversized knurled-aluminum handle
- Lightweight for easy portability
- 3 quick pumps to get cars up in the air
- 4 pumps raise the vehicle to full height
- Roller-cam plungers and u-joint release
- Alloy-plated ram
- Double-sealed hydraulics for longer service life
- Dual-plunger pump assembly
- Built-in safety overload valve
